

LifeWalk Mission International

Families for Christ!

A Spiritual Venture for Families

Concept

Strengthen your relationship and develop a "Great Commission oriented" family by serving shoulder-to-shoulder on the mission field for a week. A family mission trip is a great tool for parents to use to assist in building a mission mindset and worldview in the heart of their elementary aged children and high school young people. This special excursion will change your life, help you build relationships and create memories that will last your family a lifetime, and beyond. Family missions are for families of all ages, even those with young children.

A Family that Prays together, Stays together!

How it Works

These special trips will be coordinated through LifeWalk Mission International; provided that:

- A minimum of 7 in a party may travel beyond the United States (the approved groups cannot have more children under the age of 12 versus adults in each party)
- Close friends of the family may be counted into the proposed travel party
- The ministry has **at least six months** of planning a proposed mission trip
- At the time of approval, all members within a group must have a valid U.S. Passport (booklet) and all health vaccinations are current
- A non-refundable deposit of \$500 is cleared before approval
- Specific travel dates beyond the ministry's annually scheduled mission travels may cause your cost to be slightly higher
